

# Township of Carling Press Release

## **Carling's Boat Launches Open**

Monday May 11<sup>th</sup> 2020

The Province amended the Essential Services List on Friday afternoon, allowing marinas to provide service for people accessing their seasonal properties. With this restriction being lifted the Township of Carling now feels comfortable opening up our boat launches.

Effective Tuesday May 12, 2020, all Township maintained boat launches will be open to Carling Municipal Permit Holders. It is important to ensure that infection control rules continue to be followed. Here is a list of safety precautions that should be taken to reduce the spread of the virus:

- Only travel with those in your immediate household;
- Maintain 2 metre social distance from all other people;
- Sanitize everything you touch at the public launches;
- Social gatherings are forbidden on docks, shorelines, walking paths, parking lots and elsewhere.

Remember to display your 2020 Municipal Permits on the windshield or other visible location on your dashboard. Failure to display a permit clearly or displaying a permit from a previous year could result in a parking ticket.

If you are coming to visit your seasonal home from another community please do your shopping there and practice self-isolation when you arrive in Carling.
