(2) No interment shall take place until the person making the arrangements for the interment has complied with the by-laws, rules and regulations relative to burials. Persons making arrangements for interments shall be responsible for all charges incurred by way of entering an Interment/Services Contract. Such arrangements may be made by telephone, but a signed, faxed, emailed or scanned, copy of the Interment/Service Contract must be received by the cemetery administrative clerk before the interment may take place. In the event the person making the arrangements for interment is not the interment rights holder a Letter of Permission to Bury must also be completed, signed and dated by all known interment rights holders and forwarded to the cemetery administrative clerk. (7) The Town shall not be held responsible for errors in the location of graves on lots arising from the improper instructions of interment rights holders or their representatives. For the purpose of this sub-section, an order from a Funeral Director shall be deemed to be an order from an owner.

(8) In those cases where an interment rights holder chooses to have the first burial in an adult grave at sufficient double depth to facilitate a future standard depth burial above the deep burial, the interment rights holder has determined that it is preferable, and chooses, to purchase a vault or a crypt as opposed to purchasing a second grave which would accommodate the second full casket burial. Prior to 2006 burials at double depth in steel caskets were permitted, therefore burial of a casket at standard depth above a steel casket will be allowed in these instances only. In the case of burial of an

infant a fiberglass casket is acceptable at standard depth only; due to lot sizes infant caskets may not be interred across the head or foot of a grave.

(9) Each full single grave may have a total of 6 (six) interments, this being a combination of casket & cremation (ash) burials, with a maximum of 2 caskets, 1 at double depth which is recommended to be enclosed in a crypt or vault to preserve the integrity of the deceased at the lower level, but this vault or crypt is not mandated as per the FBSCA Section 38.1, and 1 at standard depth and 4 cremations OR 1 casket and 5 cremations OR 6 cremations. If a rights holder chooses not to utilize a vault or a crypt to facilitate a double depth burial, then the interment options for use of the single grave are: 1 casket at standard depth and 5 cremations OR 6 cremations.

(10) No interment equipment except that approved by the Town shall be used, except as noted in sub-section 13 below.

(11) No grave or niche shall be opened or closed except by cemetery staff.

(12) No elevated mounds shall be built over graves and no lot shall be filled above the grade established for the cemetery.

(13) When full size interments are required, all funeral homes shall be responsible for the supply and operation of lowering devices and artificial grass, whether owned by the funeral home or leased from a supplier by the funeral home.

(14) If, for any valid reason, the Lead hand determines that a burial cannot be made on the day of the funeral, he may direct that the body be placed in temporary entombment and the burial shall be made as soon after the day of the funeral as conditions permit. For such service, no charge shall be made for the use of the storage facility.

(15) Temporary entombment may be made in the storage facility during the winter season (November 15th to May 15th), dependent on the weather. No entombments shall be permitted however, unless embalming has been done or a hermetically sealed container is used. Committal services may be held in the Chapel.

Persons dying from contagious disease that are not embalmed or as identified in the Health Protection and Promotion Act R.R.O. 1990, Regulation 557 Sections 7 to 11, as amended from time to time, are not receivable in the storage facility. Such remains shall only be interred during the regular burial season and when a hermetically sealed container and/or an outer container, satisfactory to the Town of Parry Sound as directed by the Medical Officer of Health are used and shall not be disinterred, except as provided for in the Act.

(16) Grave side services and interments shall be permitted only on Monday to Friday between 8:00 am and 4:00 pm and on Saturday between 9:00 am and 12 noon, subject to lead hand or designate availability, between the 15th day of April and the 15th day of November of each year, weather permitting. These dates may be extended, weather permitting, with the Lead hand agreement. (17) Spring interments, the burial of those deceased who passed during the winter months and have been in temporary entombment, will only be performed Tuesday to Friday. Spring interments will not be performed on Saturday mornings.
