Setting up for the Parade

Gibson Street will become a ONE-WAY street for the event starting at 3pm.

Floats are to begin lining up at 3pm and be ready for the parade to start at 4:30pm sharp.

Floats, participants and residents of Gibson Street are to enter from McMurray Street and move toward Isabella Street.

Float position numbers will be given out a few days before the event.

Float position numbers will be on the right hand side of the street. Please park your float as close to the position number as possible in order to maximize the ease of movement for all floats to find their locations.

Shortly after 4pm, organizers will ask that all floats move as close to the float in front of them as possible to ensure that all floats have crossed Rosetta before the beginning of the parade to avoid cross over.

Driver Instructions During the Parade

1. Ensure driver's window is open at all times.
2. Leave enough space between you and the float in front.
3. Be prepared to start and stop regularly.
4. Please obey all parade marshals' instructions.
5. Please drive in the middle of the road.
6. DO NOT cross the railway tracks unless you have enough space to cross completely.
7. If a train comes, obey all crossing signals, wait until the train is done then resume the parade at the same pace. Do not rush to catch up.

Left onto Rosetta at the lights
